

Acrylic & Spun Yarn

We first started the Acrylic business in April 1967 with Acc(American Cyanamid) and Japan Exlan, producing 6 tons per day. Now we have grown to be the leading and sole acrylic maker in Korea, producing 65,000 tons of fiber per year. We are a vertically-integrated comprehensive textile group that does business in chemicals and fabrics. In past half century, we have grown in dramatic rate to be the top yarn producer in Korea. Although now an official top manufacturer in Korea, we never stop being a better company. We expanded itself through building a new acrylic spun yarn factory in North Korea and equip with new technologies for cotton spun yarn factory in Busan. Therefore, We have the largest capacity(190,000 spindles) with the newest production system for cotton spun yarn in Korea. The highly automated facilities for supreme raw cotton and cotton spun yarn give us competitiveness in the world market.

/ Acryl Fiber & Tow

TYPE		LUSTER	DENIER	CUT LENGTH	USAGE	
Normal	B6, B8	B6, B8	0.8, 1.25, 1.5, 2, 2.5, 3, 5, 8, 10	Tow	—	Worsted spinning
				Fiber	25, 28, 32, 38, 44, 51, 64, 76, 152	Cotton spinning
					76-127, 102-127	Worsted spinning
High Shrinkable	B6, B8	B6, B8	1.5, 3	Fiber	25, 28, 32, 38, 44, 51, 64, 76, 152	Cotton spinning
					76-127, 102-127	Worsted spinning
				Tow	—	Worsted spinning
Anti-Pilling	B67, B87	SD, BR	0.8, 1.5, 2, 3	Fiber	25, 28, 32, 38, 44, 51, 64, 76, 152	Cotton spinning
					76-127, 102-127	Worsted spinning
				Tow	—	Worsted spinning
Acid-dyeable	H6, H8	H6, H8	3	Tow	—	Worsted spinning
				Fiber	76-127, 102-127	Worsted spinning
Cotton like	B4	FD	3	Tow	—	Worsted spinning
				Fiber	25, 28, 32, 38, 44, 51, 64, 76, 152	Cotton spinning
					76-127, 102-127	Worsted spinning
Flat Type	KS826	SD, BR, FD	3, 5, 10, 15, 30	Fiber	25, 28, 32, 38, 44, 51, 64, 76, 152	Hi-Pile
					76-127, 102-127	Boa-Pile
