PEACH SKIN

Since we started the polyester woven fabric business in 1981, we set up the one-stop integrated production systems that cover all the steps - yarn production, weaving, and fabric finishing.

We produce variety of textile products and execute quality inspection, which made us the top textile company in Korea. We produce 4.5 million yards of polyester fabrics per month under the brand name "ACETEX" that are sold in 30 different countries around the world.
